Summary

Student in Master of Science in Project Management, Engineer in Computer Network technology, bilingual (French, English), with experience in team projects, looks for an internship in project management will use its expertise in this field.

Studies

2010 - Ongoing
Montréal, Canada

Student in Master of Science in Project Management

ESG UQAM - École des sciences de la gestion de l'Université du Québec à Montréal -

Training in :

- Project conception (AGILE method : Scrum, Lean, Last Planner)
- Project planning
- Support systems in project
- Project feasibility
- Management of project teams
- Project financial evaluation

2007 - 2011
Amiens, France

Junior Engineer specialized in computer networking and telecommunications

ESIEE - Ecole Supérieure d'Ingénieurs en Electrotechnique et Electronique -

Training in :

- Telecommunication protocols (TCP/IP)
- Installing and configuration of routers and network switches
- Network design
- CISCO CCNA certification ongoing
- Multitask programming
- Network-oriented programming

Major of promotion (2009-2010).

Professional Experience

2008 - 2009
Amiens, France

Creation of robot "Yuudo"

Project to develop a WI-FI e-robot equipped with capabilities of speech recognition and synthesis, able to answer questions in natural language. PIC programming in C, WI-FI, UDP, use of speech recognition and synthesis libraries (Vocon3200 and RealSpeak Solo).

Won 1st prize at the ESIEE projects day.

Professional Experience (following)

Summer 2007
Mondeville, France

Darty, Warehouseman, "first steps in business" work placement for 4 weeks prolonged by an employment contract of 2 weeks.
Warehouseman and after-sales service.

Summer 2005 – 2006
Sliema, Malta

ZEturf, Developer, work placement in Malta for 5 weeks in 2005 and 2006.
Programming of the website (zeturf.com) in PHP, hotline, servers' management, logo creation, computer maintenance, set up of secure web pages and coordinator of the translation of the website.

Summer 2004
Port-en-Bessin, France

SAUVAGE, Fisherman, summer job for 1 month in a fishing boat.
Sailor on board a trawler in Normandy.

Completed projects

Autumn 2010
Montréal, Canada

Study of the creation process of codex/collection of texts
Coop-UQAM et Repro-UQAM
Analysis of quality processes in order to improve it.

Autumn 2010
Montréal, Canada

Studies of technical and marketing feasibilities
Conducted for the development of an application for smart phones named ActiCity and social networks oriented.

Summer 2010
Beijing, China

Introduction of an interconnection between Wireless Sensor Networks (WSN) and IPv6
BUPT - Beijing University of Posts and Telecommunications -
Project as a professional thesis supervised by Professor Xui.

Skills

Project Management

Team management: several experiences of team works in projects in engineering school and management school.

Adaptation: rich experience as a developer in Malta and researcher in China.

Leadership: support for the coordination of teams (e.g. Yuudo).

Computer and programming

Languages: Java, C, PHP, HTML, CSS, MySQL

Operating Systems: Windows XP/Vista/7, GNU/Linux

Software: Microsoft Office, Microsoft Project, Microsoft Visio, Photoshop

Networking and telecommunications

Telecommunications protocols: TCP/IP, IPv6, UDP

Web Solutions: LAMP, DNS, FTP

Linguistic

French: mother tongue

Fluent English (FCE)
